

# BioN activities

2010-2011

# Training in Cellular biotechnological methodology

- Proposed 1 month training for 10 students in EU labs in cellular neuroscience

We offer to split it in individual student practical placements

- Difficulty for collective training – due to a particularity of cellular technologies
- Get prior approval from EC

# Training in information processing

- 1 month training in **biotechnological methodology in information processing** (fMRI, MEG data processing, neuro-modeling, BCI)

2 options to hold it:

**in HU**

**In RF – MSU or SPbU**

SPbU – lectures and practice in analysis

Moscow – lectures and practice in fMRI and MEG-  
needs prior agreement (we'll know by the end of  
May)

# Schedule for monthly seminars in neurobiotechnology for 2011

Offer – a firm date for monthly seminar –for ex:  
the 4th Tuesday of each month on 4.15 p.m.

Title of Webinars “Neurotechnologies 16.15”

Invite speakers to give a lecture in turn between 6 RF Partners-

One partner in 6 months will be a host of “16.15” webinar
