

# Legalization of BioN's course an schools: ECTS certificate and program of “additional education”

Alexey Zavarzin

St.Petersburg State University

BioN 3<sup>rd</sup> Project Management Meeting, May 5<sup>th</sup>, 2011

# Legalization

---

- The federal state requirements to the structure of the “after-university” training program (*draft requirements published on Dec. 10<sup>th</sup>, 2010*)
- The right of developing and adopting educational standards (*to be extended to PhD level*)

# Legalization

---

- Academic and research components:
  - Academic (ECTS – 30)
  - Research (ECTS – 180)
- Within Academic component:
  - Obligatory courses – 14
  - Special and Elective courses -13
  - Practical training – 3

*ECTS: 1 credit = 36 academic hours (45 min)*

*Max. work load: 54 hours per week*

# Legalization

---

- Selection of the PhD programs according to the list of academic specializations
- Agreement on correspondence of curricula and mutual recognition of courses and training periods among partners

# Additional training

---

- Building up market
  - Identification of potential “customers”
  - Approval of curricula components (courses) as additional training modules (*formal procedures*)
  - Introducing distant training possibilities
  - Ensuring availability of training materials
